EDUCATION

Bansal Institute of Engineering and Technology

B.Tech - Computer Science and Engineering

2020 – 2024

Lucknow, Uttar Pradesh

S.D.A Intter College

Intermediate

2018 – 2019

Karanwash, Uttar Pradesh

Anokhi D H S S Ghusrana

High School

2016 – 2017

GhusranaGail, Uttar Pradesh india

PROJECTS

Xelo Web Application [🔗](#) | [Reactjs](#), [Tailwindcss](#), [DaisyUi](#), [Python](#), [Django](#), [MySQL](#)

- Working on Xelo web applications using React JS, Python, Django, DaisyUI, MongoDB, and Tailwind CSS.
- Implementing advanced data visualization techniques using libraries like Chart.js and Plotly.
- Providing users with clear and insightful data representations.
- Implementing RESTful APIs and microservices to manage backend data and ensure seamless interaction between front-end and server.
- Future prospect: creating campaigns and tracking data and CTV.

Educity Website [🔗](#) | [Reactjs](#), [Tailwindcss](#), [Nodejs](#), [Expressjs](#), [Mongodb](#)

- leveraging modern React concepts such as Hooks, map(), and filter() functions for efficient data handling.
- Incorporates cutting-edge web technologies to enhance performance, scalability, and user engagement.
- All form data is stored in a MongoDB database using Axios for seamless communication.
- Fully responsive to ensure optimal functionality across devices.

Tomato (foode Delivery App) [🔗](#) | [Reactjs](#), [CSS](#), [DaisyUi](#), [Nodejs](#), [Expressjs](#), [Mongodb](#)

- Designed to provide convenient food delivery services to homes and various locations.
- Includes various modules like User, Admin, Payment, Order Tracking, Delivery, and Restaurant.
- Features menu item management to streamline the food delivery process.
- Admin functions allow adding/removing menu items and updating order statuses like 'Processing', 'Out for Delivery', and 'Delivered'.

EXPERIENCE

Xeloop Media Pvt Ltd

25-07-2024 – Present

Software Developer

- Working as a software developer, building dynamic data visualizations with ApexCharts.
- Crafted responsive user interfaces using React.js.
- Strong understanding of modern frontend and backend technologies and best practices.
- Implemented real-time data fetching from a single URL to ensure accurate and timely information.
- Enhanced overall user experience through effective collaboration with cross-functional teams.

Revogue Retail Pvt Ltd

16-04-2024 – 16-07-2024

Python Developer Intern

- Worked as a Python developer, building dynamic backend services and APIs.
- Integrated third-party services and payment gateways to enhance e-commerce functionality.
- Optimized database queries for efficient data retrieval using SQL/NoSQL databases.
- Implemented real-time data fetching and API integrations for up-to-date information.
- Collaborated with cross-functional teams to improve overall backend performance and security.

Technical Skills and Frameworks

React Js, TailWind Css, Javascript, DaisyUi, Python, Django Node Js, Express Js, MySQL.

CERTIFICATIONS

- Python Developer intern
- FrontEnd Dominaiton - Sheryians Coding School
- Full - Stack Web Development - Apna College
