**Anokhi D H S S Ghusrana**

*High School*

**2016 – 2017**

*GhusranaGail, Uttar Pradesh india*

## PROJECTS

**Xelo Web Application** | [Reactjs](#), [Tailwindcss](#), [DaisyUi](#), [Python](#), [Django](#), [MySQL](#)

- working on xelo web applications using technologies such as React JS, Python, MongoDB, and Tailwind CSS. Implementing advance data visualization techniques using libraries like Chart.js, and Plotly, providing users with clear and insightful data representations. and all the data visualization into charting formate.
- RESTful APIs and microservices to manage backend data and ensure seamless interaction between front-end and server and that project will be use for create campaign and trackier and this project can be use in future to CTV.

**Educity Website** | [Reactjs](#), [Tailwindcss](#), [Nodejs](#), [Expressjs](#), [Mongodb](#)

- This website leverages modern React concepts such as Hooks, the map() and filter() functions for efficient data handling, and ensures full responsiveness. It incorporates cutting-edge web technologies to enhance performance, scalability, and user engagement.
- All form data is stored in a MongoDB database using Axios for seamless communication. The website is fully responsive, ensuring both optimal functionality and user experience across devices.

**Tomato (foode Delivery App)** | [Reactjs](#), [CSS](#), [DaisyUi](#), [Nodejs](#), [Expressjs](#), [Mongodb](#)

- Tomato is a food delivery web application designed to provide convenient food delivery services to homes and various locations.
- The application includes various modules such as User, Admin, Payment, Order Tracking, Delivery, and Restaurant modules, with features like menu item management to streamline the food delivery process.
- Admins have the ability to add and remove menu items, as well as update order statuses such as 'Processing,' 'Out for Delivery,' and 'Delivered.'

## EXPERIENCE

**Xeloop Media Pvt Ltd Lucknow**

**25-07-2024 – Present**

*Software Developer*

I am working as a software developer, building dynamic data visualizations with ApexCharts, and crafting responsive user interfaces using React.js. I have a strong understanding of modern frontend technologies and best practices, which allows me to create scalable and maintainable applications. In addition, I implement real-time data fetching from a single URL to ensure accurate and timely information, enhancing the overall user experience. My ability to collaborate effectively with cross-functional teams helps me deliver high-quality.

**Revogue Retail Pvt Ltd Mumbai**

**16-04-2024 – 16-07-2024**

*Front-end Developer Intern*

As a Frontend Developer Intern, I worked closely with the development team to design, develop, and implement user interfaces for e-commerce website.
